
OG-166

Premium, Water-Miscible Blanket and Roller Wash

Product Description

OG-166 was formulated to be the premium, water-miscible blanket and roller wash product for use in sheetfed and web-cleaning applications. It is a special blend of solvents and emulsifiers, formulated so that when mixed with water, cleaning performance is not sacrificed. OG-166 is recommended to use to eliminate the build-up of paper lint piling.

Product Application

OG-166 offers the printer the best possible performance on difficult to clean blankets and rollers. It has the extra cleaning power for heavy piling, yet is friendly and economical to use, is compatible with press elastomers and equipment, and is compliant with environmental regulations.
