## OG 210 MRC Select

*Metering Roller Cleaner / Type Wash / Small Press Wash*

---

---

### ***Product Description***

OG 210 MRC Select is a blend of solvents designed to quickly remove ink piling and ink feed-back on dampening system rollers. It is multi-purpose to serve as an extra-fast-drying roller and blanket wash for smaller presses and a type wash for metal type.

### ***Product Application***

OG 210 MRC Select is the product of choice for a metering roller cleaner for sheetfed or web dampening systems. The fast-drying formula leaves no ink-loving residue and promotes the smooth transfer of fountain solution. For extra fast cleaning on quick turn around small press operations, OG 210 MRC Select is the product of choice. It is compatible with press elastomers and equipment and also has an advantage of reduced VOC.

### ***Technical Specifications***

Drying Speed	Very Fast
Water-Miscible	No
Flash Point (°F TCC)	10
VOC (lb/gal method 24)	5.25
Vapor Pressure (mm HG)	8.2
Odor/Fragrance	Medium / Mint

### ***Features and Benefits***

- \* Fast-drying metering roller cleaner.
- \* Very fast-drying – for fast manual and automatic cleaning of rollers and blankets.
- \* Fast-acting formula dissolves ink and other contaminates.
- \* Contains no surfactants and leaves no oily residue.
- \* Contains no aromatic hydrocarbons.
- \* Excellent for cleaning metal type.

### ***Directions***

Blankets: Apply OG 210 MRC Select with a saturated cloth and wipe in a back and forth motion. Wipe clean with a dry cloth.

Rollers: Apply OG 210 MRC Select to roller train with a solvent applicator bottle. Engage the wash-up blade, or on small presses attach a wash-up sheet to the plate cylinder. Apply small amounts of OG 210 MRC Select until the rollers are clean.

Metering Roller: Saturate a cloth and wipe metering roller to remove ink.
