
OG 371

Step 1 Color Wash

Product Description

OG 371 Step1 Color Wash is a special emulsion of solvents, emulsifiers and water, designed to deep clean ink and press contaminates from ink train rollers. OG 371 Step1 Color Wash should be used in conjunction with OG 330 Step 2 Color Wash to thoroughly rinse wash and residue from rollers.

Product Application

OG 371 Step1 Color Wash is recommended for thorough wash-up between color changes or for regular periodic roller wash-up to thoroughly remove ink, surfactants and build-up of contaminates. Regular use of OG 371 Step 1 Color with OG 330 Step 2 Color Wash will keep rollers in top condition for optimum ink transfer properties.

Technical Specifications

Drying Speed	Slow
Water-Miscible	Yes
Flash Point (°F TCC)	107
VOC (lb/gal method 24)	5.30
Vapor Pressure (mm HG)	2.00
Odor/Fragrance	Mild

Features and Benefits

- *Deep cleans for ink color changes
- * Removes surfactants and built-up contaminates.
- * Safe for nitrile and composite rollers.
- * Low odor, user-friendly formula.

Directions

Apply OG 371 Step 1 Color Wash to the ink roller train, allow it to run in for several minutes and engage the wash-up blade. When ink is removed, disengage the wash-up blade and repeat the process. Apply OG 330 Step 2 Color Wash as a final wash/rinse step to remove any residual Step 1 from rollers
